Experience

FREELANCE SELF EMPLOYED

MAY 2024 - PRESENT

- Design and develop responsive, cross-browser web applications using HTML, CSS, JavaScript, TypeScript, and modern frameworks (React/Angular), emphasizing component-based architecture and scalable UI systems.
- Translate client requirements into interactive prototypes, design systems, and production-ready code, leveraging Figma, Framer, and responsive design best practices.
- Implement accessibility standards (WCAG/Section 508), performance optimization, and SEO best practices to improve usability and engagement.
- Manage full project lifecycle in agile environments, including stakeholder communication, version control (Git), and iterative delivery of high-quality, testable solutions.

WEB DESIGN ENGINEER INTERN BLOOM ENERGY

MAY 2023 – AUG 2023

- Developed a responsive front-end application integrating real-time REST API data, creating dynamic data visualizations and interactive UI components.
- Collaborated with cross-functional teams to implement user-centric, event-driven designs, improving clarity of complex engineering data.
- Delivered scalable, maintainable code using modern JavaScript practices, supporting modular architecture and reusable components.
- Utilized Git-based workflows and agile methodologies to accelerate development cycles and support continuous integration practices.

UI/UX DESIGNER TRUE-LIIF (CLIENT PROJECT)

- Led end-to-end redesign of a web platform, improving information architecture, navigation, and responsive UI design across multiple user groups.
- Created wireframes, prototypes, and design systems aligned with UI/UX best practices, ensuring seamless developer handoff.
- Collaborated with stakeholders to iterate on user flows, edge cases, and accessibility considerations, enhancing overall usability.

Skills

Front-End Development:

HTML5, CSS3, JavaScript (ES6+), TypeScript, React, Angular, Responsive Design, Cross-Browser Compatibility, Component-Based Architecture

Frameworks & Tools:

Git, GitHub, CI/CD Concepts, REST APIs, WebSockets, Figma, Framer, Adobe XD

UX/UI & Accessibility:

Wireframing, Prototyping, Design Systems, Usability Testing, WCAG Accessibility Standards, SEO Best Practices

Education

KENNESAW STATE UNIVERSITY

Bachelor of Science in Software Engineering
